PROFESSIONAL SUMMARY

Junior QA Engineer with ~10 months of hands-on experience (since January 2026) and a Software Engineering foundation. Designs and executes test plans, test cases, and regression suites for web applications, builds Playwright (Java & JavaScript) automation, and performs API testing with Postman. A frontend development background (React JS) strengthens UI/UX testing and collaboration with developers.

CORE SKILLS

Testing: Manual & functional testing, regression testing, test case design (equivalence partitioning, boundary value analysis), API testing (Postman), bug reporting & reproduction, test documentation.

Automation: Playwright (Java & JavaScript), TestNG, Selenium, Git / GitHub.

Other: MySQL, HTML / CSS, JavaScript, React JS, Google Sheets, Chrome DevTools.

WORK EXPERIENCE

QA Engineer
January 2026 – Present

PT Global Energi Lestari · Bandung

- Design, document, and execute comprehensive test plans, test cases, and test scenarios for web applications.
- Build and maintain automated test scripts using Playwright with Java and JavaScript to improve regression efficiency and accelerate release cycles.
- Report defects with clear reproduction steps, expected vs actual results, severity, and evidence, then verify fixes before release.

Facilitator
August 2025 – October 2025

Kaizen Collaborative Impact

- Facilitated learning of basic programming and AI through the Hour of Code program.
- Guided participants using an interactive, inclusive approach aligned with global standards.

Mentor Coding Camp
February 2025 – July 2025

Dicoding Indonesia x DBS Foundation

- Reviewed and evaluated mentees' learning progress on HTML, CSS, JavaScript, and React.
- Provided regular feedback and helped mentees complete and evaluate their final projects.

Frontend Developer
August 2024 – January 2025

Waizly Technology

- Continued the development and maintenance of Warehouse Management System (WMS) features using React JS.
- Fixed bugs and adjusted UI components.

EDUCATION

Universitas Pendidikan Indonesia — S1 Rekayasa Perangkat Lunak
2020 – 2024

Bachelor of Software Engineering · **GPA 3.64**

CERTIFICATIONS & PROGRAMS

Google Cloud: Deploy to Kubernetes in Google Cloud · Google Cloud Fundamentals: Core Infrastructure · Getting Started with Google Kubernetes Engine · AWS Cloud Practitioner Essentials (Dicoding).
